J. B. CARTER,
HYDE PARK.

The Noiseless, Light-Running, Straight Needle
NEW NO. 8,

IS the only Family Sewing Machine you can afford to buy, because it is the only Machine that does all kinds of family sewing perfectly. It not only does fine work, but it **EXCELS IN SEWING HEAVY GOODS**. It is durable. It will last a lifetime. It does not oil the thread or goods. On this account many manufacturers of fine clothing will not allow their work to be done on any machine but a Wheeler & Wilson. It has no shuttle to wear out. The expense of keeping many machines supplied with shuttles would pay for a No. 8. It is worth four times as much, and will do twice the work of other machines. It is run by steam power from twelve hundred to fifteen hundred stitches per minute.

AWARDED GRAND GOLD MEDAL

Paris Exposition, 1878. **FIRST PRIZE**—Australian Exhibition, 1881.

"Of all the machines tested the Wheeler & Wilson was the most successful, failing in nothing."—*Report from the Centennial to the English Government.*

Machines Sold on Easy Terms. Try a New No. 8 Before Buying any Other.

**THE ATTENTION OF
Boot and Shoe Manufacturers
AND OTHERS**

Is especially called to the unsurpassed facilities afforded for locating and conducting manufactories in the town of Hyde Park. Its principal advantages over other locations are its accessibility, (being only seven miles from Boston,) and its railroad facilities, having two of the best managed railroads in the country,—the Providence and the New England,—the depot of one (which is the pride of the city) being located at the foot of the common, the other in the heart of business activity, making the town equally accessible to business men and families. The town of Hyde Park has five stations within its limits. The Neponset river flows through the center of the town. A careful survey of the situation will convince any business man that for economy, accessibility and healthfulness, there exists a combination of advantages which can be found in no other town. The lands of the

REAL ESTATE AND BUILDING COMPANY

are in the market at about one-tenth the prices paid for land in other manufacturing towns and cities. Special inducements will be made to manufacturing companies and other business enterprises, by furnishing them with the best locations at a mere nominal price. Further information can be had by applying to CHARLES J. PAGE, Treasurer of the Real Estate and Building Co., Commonwealth Bank Building, Boston.

FAIRMOUNT AVE., HYDE PARK.

THE TOWN OF HYDE PARK.

Hyde Park, Norfolk County, eight miles from State street, Boston, on the line of the Boston & Providence and New York & New England railroads, is a thriving and enterprising town of a little over seven thousand inhabitants. The place was incorporated April 22, 1868, from territory taken in part from the towns of Dorchester, Milton and Dedham. May 15th last, was the twenty-fifth anniversary of the building of the first house in the town, in what is known as the Fairmount district, which event was the beginning of the place. The first school was begun in the spring of 1857. The Real Estate and Building Company, which was the leading spirit in promoting the growth of the town, was formed in 1857 and incorporated in 1861. The first religious meeting was held in June, 1857.

Few towns in the Commonwealth can boast of a finer or more healthful location, or more natural beauties of situation and of scenery than Hyde Park. Its growth the past few years has been rapid and healthful, due in a great measure to its excellent graded schools, public library, churches, highways, "Improvement Society" and last but not least its unsurpassed railroad facilities. The two well managed railroads furnish a better railway service for the people of Hyde Park than is enjoyed by those of any other town in New England. The industrial interests of the town have con-

tributed a good deal to the town's growth, in the past few years, giving to its citizenship a large and intelligent class of skilled workmen. The large woolen mills of Messrs. Robert Bleakie & Co., American Tool and Machine Company, Brainard Milling Machine Company, Smithfield Manufacturing Company, (cotton goods,) Glover & Willcomb, Curled Hair Works, Tileston & Hollingsworth, Paper Mills, Prushan Rubber Company, Spring, Robinson & Co., Machine Shops and the Morocco Works, combine to give the place the appearance of a live, enterprising and thrifty business community.

IMPORTERS AND DEALERS IN

DRY GOODS.AT THE OLD STAND.  ESTABLISHED IN 1855.**Nos. 5 and 7 Winter Street, Boston.**

THE ATTENTION OF**Boot and Shoe Manufacturers****AND OTHERS**

Is especially called to the unsurpassed facilities afforded for locating and conducting manufactories in the town of Hyde Park. Its principal advantages over other locations are its accessibility, (being only seven miles from Boston,) and its railroad facilities, having two of the best managed railroads in the country,—the Providence and the New England,—the depot of one (which is the pride of the city) being located at the foot of the common, the other in the heart of business activity, making the town equally accessible to business men and families. The town of Hyde Park has five stations within its limits. The Neponset river flows through the center of the town. A careful survey of the situation will convince any business man that for economy, accessibility and healthfulness, there exists a combination of advantages which can be found in no other town. The lands of the

REAL ESTATE AND BUILDING COMPANY

are in the market at about one-tenth the prices paid for land in other manufacturing towns and cities. Special inducements will be made to manufacturing companies and other business enterprises, by furnishing them with the best locations at a mere nominal price. Further information can be had by applying to CHARLES J. PAGE, Treasurer of the Real Estate and Building Co., Commonwealth Bank Building, Boston.
